

Village of

Neighborhood Meetings

KW2023 – Green Streets

The Village is developing plans for a construction project in the spring of 2022. The primary goal of the project is to provide flooding relief to your area. The project will feature green infrastructure with new porous paver roadways as a key feature on Raleigh, Leicester, and Warwick roads. The new storm sewer system will connect to Sheridan Road via Woodstock Avenue.

In advance of finalizing the project design, the Village Board of Trustees is hosting three neighborhood meetings. Please consider joining us to learn more about the project and get answers to your questions. The outdoor meetings will be on:

- ◆ **Thursday, October 14th – Warwick/Woodstock @ 6:00 p.m.**
- ◆ **Tuesday, October 19th – Leicester/Woodstock @ 6:00 p.m.**
- ◆ **Thursday, October 21st – Raleigh/Woodstock @ 6:00 p.m.**

Note: In event of rain—we will postpone to the next dry weeknight.

Would you like to receive text alerts and important project updates as the planned construction project progresses? Please text “green” to 74121.
