Green Streets Full Road Closure Phase – Begins Tuesday, September 27th
Warwick Road – Kenilworth Ave. to Woodstock Ave.

Greetings,

I am writing to let you know that the Full Road Closure phase for the north half of Warwick Road is scheduled to begin on Tuesday, September 27th. This means that we have reached the point in our Green Streets project where you will not have vehicular access to your garage, driveway, or Leicester Road.

So, what does this mean for you?

- **Road Closure Duration:** Starting September 27th – through approximately October 11th (rain could delay construction activity) ***Please remove your vehicle from your garage / driveway by 7:00 a.m. on Tuesday, September 27th, otherwise it will be stuck there until approximately October 11th.***
- **Where to Park:** We have established a “J” parking area for you that is as close to your home as the construction will allow. Two parking permits are enclosed – please call if you need more. We have set up exclusive parking for you north of Woodstock Avenue on Leicester Road and north of Woodstock Avenue on Essex Road.
- **Emergency Medical / Fire Department Access:** The fire department is aware of the construction and will have access to your home as needed. Nightly, the construction area will be “ramped” from Woodstock so fire trucks can enter if needed. Passenger vehicles are not allowed in the area.
- **Refuse Services / Deliveries:** Our refuse/recycling hauler will walk the block for collection during the Block Closure Phase. Delivery services such as Amazon, UPS, FedEx, and Grub Hub will also be able to walk in deliveries for the block.
- **Sidewalk Access and Street Lighting:** We will make best effort to keep the sidewalks available and streetlights working during this phase. Please call if you notice any sidewalk obstructions or streetlights that are not functioning as the underground cables may be damaged without our knowledge.
- **What is the Current Status?** Regular project updates will be sent via text. If you have not signed up already, please text “green” to 74121. Our website will also contain updates, but may not be as timely (or informative) as the text alerts. ***Work hours: Monday-Friday, 7a - 7p, Saturday, 8a - 6p***
- **Special Circumstance/Problems:** Moving? Furniture being delivered that you waited 6 months to get? Contractor needing access? We understand that life does not have a pause button just because we are improving your street. Call us with any issues or concerns and we will do our best to jointly find a solution. Unfortunately, there is no good answer to the dirt and dust of construction. The good news is that we will be done on your block soon!

I understand that the extensive amount of work happening on your street has been a significant pain. Nikki Ang and I will continue to help you through this as much as possible. Feel free to contact us with any questions or comments you have. Soon you will have a new roadway and storm sewer system designed to address our flooding problems for many decades.

Sincerely,

Patrick Brennan
Village Manager
